

LEARNING IN THE LIMELIGHT

@Ruskin

This week in MFL...

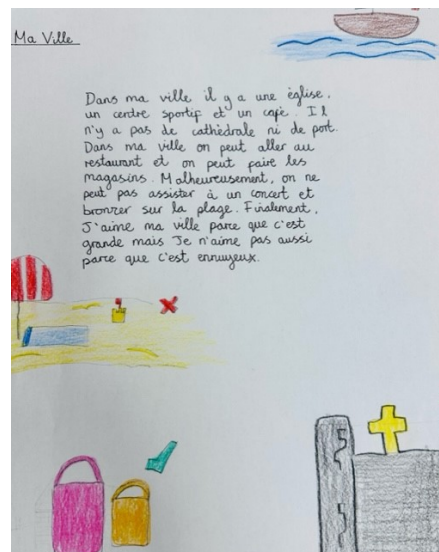

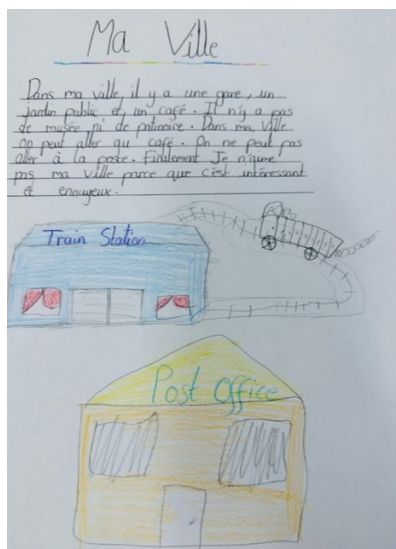

This is the final week of half term which is a great place to see just how far students have come and how much progress has been made since the start of the academic year.

Year 8 students have completed essays in French this week in which they had to describe their town. The brief was that it needed to be informative, contain connectives, contain negative sentence structures as well as justified opinions and the complex French structure 'on peut'.

All students excelled themselves.
