

LEARNING IN THE LIMELIGHT

@Ruskin

This week in Computing and Business Studies...

Year 10 Business Studies

Students have been looking at what makes customers' return to a business and have been investigating businesses that have loyal customers. Students have discussed how price, product, convenience and choice all play a part in keeping customers happy.

Year 7

Year 7 have started a new topic this week all about "Using Media". They will be looking at the different software that we have for different purposes. They will be able to answer questions such as "Which software would you use to create a newsletter?" "Which would you use to organise your spending?" Students will be creating professional looking documents for particular audiences using relevant software.

Year 8

Year 8 have started investigating all of the wonderful things that can be done in a Spreadsheet. This week they have used the drag and fill feature, used cell references and formatting and started to use basic formula to calculate some simple sums.

Year 9

Year 9 have started a new topic all about Binary. This week they have looked at what binary is, why it is used and they are able to convert binary into denary and vice versa.
