

# LEARNING IN THE LIMELICHT

## This week in PE ...

#### **KS3 Core PE**

Prior to half term, KS3 conducted their autumn assessments. This week has seen KS3 embed a new approach to reflecting on their learning. Students recognised their strengths and areas of improvements, whilst target setting for this half terms learning. Our new approach embeds the core knowledge questions, a development of understanding of the assessment process, and a chance to demonstrate our school value of High Aspirations.

### Extra—Curricular

This week saw the Year 8 and Year 10 boys football teams play on Tuesday 31st October afterschool. Although there was a narrow loss, both teams represented the school well.

Unfortunately, due to the weather and pitch conditions, the Year 7 and 9 games had to be postponed. The Year 8 girls' netball match was also unfortunately postponed.

Another brilliant turnout this week for girls afterschool football, with a game scheduled for next week.

Due to the increase in popularity of our lunch and afterschool clubs, we are starting our department rewards scheme, which we look forward to rolling out soon.

Assessment 1					
Assessment	Stork Stand	MSFT	Ball toss	30m sprint	Speed bounce
My practical grades					
Assessment	Decision Making	Social	Leadership	Knowledge	Personal
My holistic grades					
Overall Grade:	4	My over of strength ply also of strength is the 30m. Strength is the 30m. This holps me because the spead helps me because I was it in dightark speak.		One was that I need to improve the ass 1 read to tents (improve to bout less	

#### Year 10 and Yea r11 BTEC Sport

Year 10 and 11 BTEC Sport students are working hard to complete work for their December deadlines.

Year 10 have been researching the different officials for their chosen sport, and their use of equipment in different game scenarios.

Year 11 have been evidencing the use of equipment and technology in relation to their participant and how they could be successful in starting a new sport.
